

Press release

Achmea Investment Management agrees strategic partnership with LGT Capital Partners

- LGT Capital Partners to become strategic partner for selecting and monitoring private equity strategies and hedge funds
- The partnership gives Dutch pension funds access to global and high-quality investment opportunities
- IM is also building further on the successful collaboration that LGT CP has previously enjoyed with asset manager Blue Sky Group (BSG), which Achmea IM acquired in 2024.
- No change to the modus operandi for customers: Achmea Investment Management retains control of the portfolio strategy and advice to customers

Zeist, 25 March 2026 – Achmea Investment Management (Achmea IM) has concluded a strategic partnership with LGT Capital Partners (LGT CP) for selecting and monitoring private equity strategies and hedge funds. In doing so, Achmea IM is responding to a growing need among pension funds for specialist, international private equity and hedge fund solutions. Through this partnership, Achmea IM is also building further on the successful collaboration that LGT CP has previously enjoyed with asset manager Blue Sky Group (BSG), which Achmea IM acquired in 2024.

Private markets demand increasingly specialist expertise and access to high-quality deal flows. LGT CP is a leading global specialist in alternative investing with over \$ 110 billion in assets under management. An international team is responsible for managing a wide range of investment programs, with a special focus on private markets. The firm is headquartered in Switzerland and operates 16 offices worldwide. This partnership gives Achmea IM's customers access to an international network and a strong track record in private equity and hedge funds. The modus operandi for customers remains unchanged: Achmea IM retains fiduciary control over the total portfolio.

Achmea IM and LGT CP share the same vision of sustainable and responsible investment, with a clear focus on creating long-term value for participants. Achmea IM and LGT CP are both signatories of the Principles for Responsible Investment (PRI) and also both participate in the Net Zero Asset Managers initiative.
